**RESPONSE TO
NOTICE OF INCOMPLETE REPLY(NONPROVISIONAL)
REQUEST FOR RESET OF RESPONSE PERIOD UNDER MPEP §710.06**

Commissioner of Patents
and Trademarks
Washington, D.C. 20231

Dear Sir:

Applicant hereby requests a review of the Notice of Incomplete Reply (Confirmation No. 3215) issued March 6, 2002 in the above identified Application. The Notice purports to be a further notice of a failure of a complete response to an earlier notice however, the insufficiencies in the submitted drawings requiring substitute drawings have never been raised before. Accordingly the period for response should be reset in accordance with the provisions of the MPEP §710.06.

The earlier notices requiring substitute drawings concerned solely the failure of the drawings to include sufficient margins. The present requirements for substitute drawings are not based on margins, rather object to 1) the size of the numbers, letters and reference characters; 2) containing excessive text; and 3) the drawings are not electronically reproducible.

The present Notice also fails to point out which of the objections apply to each of the drawings.

Applicant respectfully requests that a new Notice be issued, providing Applicant with the full allowable period to respond to the objections AND stating with particularity which objection

applies to which drawing. Applicant wishes to correct any insufficiencies in the drawings as quickly as possible, however without knowing exactly what is wrong with a particular drawing, we can hardly respond.

If the Examiner in the Initial Patent Examination Division wishes to communicate with Applicant's attorney to expedite this matter, they are invited to contact H. Roy Berkenstock at 901-683-8757.

Respectfully submitted,
Garvey, Smith, Nehrbass & Doody, L.L.C.
